Supaproof®12

Supaproof 12 is a medium weight, polyester/cotton, waterproof general purpose canvas, made in Australia from locally woven loomstate fabrics, in Defab's purpose built weaving facility. The yarn contains approximately 50% Cotton, for optimum breathability and two-fold in warp and weft, maximising the strength. (12oz base cloth, 15oz finished weight). Also, the canvas is impregnated and proofed using its own proofing compound and formulated from local acrylic binders and waxes. Supaproof is especially suitable for markets such as supported covers, loose covers, awnings, annex roofing and walls, hats, stall covers, trailer covers, swags, bags, tenting etc.
